The English Channel: A Tribute to the British Invasion

Classic Rock. Bouncy Pop.

Formed in 2001, The English Channel authentically & meticulously recreates British pop, rock and prog from the mid '60's to the mid '70's. Each song they play sounds "just like the record" and just like you remember it. The members of this band have a passion for this music and it shows with their energy & enthusiasm onstage.

Rewind to one cold Sunday night in February 1964, with The Beatles' appearance on the Ed Sullivan Show. Soon after that momentous and magical night, the floodgates opened for the Rolling Stones, The Zombies, Petula Clark, the Dave Clark 5, The Kinks, Herman's Hermits, The

Hollies, Dusty Springfield, The Who, the Moody Blues, The Animals, The Yardbirds, and many others. So began the second "British Invasion" of America. But this time around, America didn't fight the Brits. Instead, America's youth welcomed them with open arms. This time around, their invasion was an overwhelming success! Thanks to the Brits, popular music and culture would never be the same again. <https://www.eventbrite.com/e/the-english-channel-rotary-summer-concert-series-tickets-53991625405>

Elvis Genre Concert

Charlie Dunn is a multi-faceted professional singer and entertainer who has performed at weddings, corporate events, private parties and just about any other event you can think of over his 25-year career as a professional entertainer. He captures the persona of Elvis for his tribute to "The King" while channeling the likes of Michael Buble', Frank Sinatra, Dean Martin and many others for his tribute to the Great American Crooners. Highlights include performing at the Baltimore Convention Center and the Las Vegas Paris Hotel and Casino. Locally he has performed at many festivals including the Elvis Festival in Virginia Beach, River Walk/Yorktown 4th of July Celebration, the Daffodil Festival and countless fundraisers.

Charlie will perform individually, and then another band led by Jon Vallet will take the stage. They will take you back to the Elvis genre by playing individually and together. This is sure to be a great show!
